APPLICATION FOR TUITION ASSISTANCE

The Tuition Assistance Program (TAP) is provided to help those families who have a genuine need for financial assistance in order for their children to attend. It should be understood that the school's resources for such financial aid are limited and that the primary responsibility for tuition payment lies with the family. This application form is meant to help the school review the needs of the applicants and provide assistance, as funds are available. **The information obtained through this application will, of course, be held in strict confidence.** The TAP committee will make its decisions based on the results of the indexed need as supported by the school's financial aid formula. Please complete *all* of the information on the application. The TAP committee will not review applications not completed in full. *Applications found to have intentional false information will be automatically rejected.*

Please note: ICS-P tuition is still substantially lower than DODDS and other international accredited schools in Korea.
